# GREAT THINGS AHEAD

MARCH 29, 2019

Towson University is Greater Baltimore's largest university and talent powerhouse. We're transforming the historic Armory building in downtown Towson into **TU's front door for start-ups, small businesses, and our region's largest corporations.**

We'll catalyze entrepreneurs to seasoned executives —and connect them—to the TU's business-focused centers, programs, and human capital. This *business-first* space is where leaders network and connect with peers, incubate their ventures, find their next strategic hire, develop new solutions for pressing challenges, attract investment, and showcase their business to customers. **It's a one-stop experience that raises the bar for university-business engagement.**

This is more than just a building. **We're investing in how we do business *with* business by streamlining our corporate engagement and putting the right people and resources in place.**
